Reciprocity with the Sandwich

What obstacle prevents the Govern ment of this Colony taking steps towards negotiating a reciprocal trade treaty with the Sandwich Islands ? We are large consumers of their produce, and so are they of ours. Coal from this Island already enters Hawaiian ports free of duty; and if there be any good reason why our Government should not exert itself to extend that boon to other articles, we would like to be made acquainted with it. The United States are laying great stress upon the fact that the Hawaiian Government have agreed to a treaty of reciprocity with them, and except we can obtain the same privilege our suspected of it; but I am assured by my trade with those islands must soon be seriously affected. Our lumber, fish, shingles, barrels, &c., which we now export in considerable quantities, and on which we pay a duty of ten per cent., will be driven out of the markets there if American goods are admitted free, unless we take immediate steps to be placed upon a similar footing. Our exports last year to the Islands were large, and we can see no reason why we should suffer the trade that our merchants have been at some pains and expense to secure to be transferred to a foreign power without our Government making an effort to preventit. The schooner Kate, which sailed for the Islands last evening, carried away a valuable cargo of fish, shingles and shooks. We believe it lies with the Government of the Colony to say whether or not we shall despatch future cargoes to the Islands. Give us a fair chance with the States, and we can undersell them in every article; but place a duty on our products and allow theirs to go in free, and we must withdraw from competition. We direct the attention of the Government to this important matter, believing, as we do, that the Hawaiian Government -which is proverbially friendly to the British Government-will cheerfully accord to this Colony similar privileges | hope to have an invitation. to those lately extended to the citizens of another power. At any rate, there can be no barm in our

There exists at the present time a certain class of newspaper writers and politicians (?) who are continually foretelling the downfall of the British Empire; and, 'the wish being father to the thought,' speak or write of it as a foregone conclusion. By latest advices it appears that Dr. Cumming has indefinitely; let us cheerfully trust that the example set by so illustrious a prototype may have some weight with these picayune prophets, and induce them to "let up" for a while. In the meantime (although we can hardly conceive such a possibility), should their senseless rubbish, by constant reiteration, have had the slightest effect on some unthinking Englishmen, we commend to their attention should have it-so don't back down. Letter from the Capitai-No. 2.

(From our own Correspondent)

NEW WESTMINSTER, August 14, 1867

MESSES EDITORS :- Nothing of a very tartling nature has transpired since my last to interrupt the even tenor of our way. My letter, of course, made considerable sensation and excited a good deal of curiosity in literary circles. The authorship has been attributed to various people, the envious portion of whom of course indignantly denied having a hand in such 'trashy twaddle,' while others, when charged with it, smiled faintly as if admitting the soft impeachment. I must confess I blushed a little myself when most intimate friend (whom I asked to take a drink so as to get his candid opinion) that it is an immense production.

I did not mention in my last that important body the Municipal Council. It consists of a President and nine Councillors This fact will give you some idea of the importance of New Westminster; but none of the importance of its President and Council.

There is also a Chamber of Commerce, omprising about five members. The object of this body is not clear to me, unless it be to act as privy council to the Governor and give public dinners.

I can't quite make out what the Governor has done at Grouse Creek. I am afraid the Canadians rather 'played' him-pretended to be awed by his presence and promised not to be naughty any more, which he believed, and so forgave them. Our old friend, Mr H. H., thinks the presence of the Zealous at New Westminster or Yale would be the means of preventing the recurrence of such a thing at the mines.

A fine moteor was observed here early on Saturday morning. I have only heard of one witness : but he sits up later and can see more than other people.

The rapid growth of this place is something wonderful. By the end of this year there will have been as many as two brick stores nearly completed. Some of the material arrived from Victoria the other day, and two men are actively engaged in packing bricks and mixing mortar for Mr Cunningham's store. I anticipate a public dinner on the laying of the foundation brick, for which I

Cranberries are brought into the city now n immense quantities. They form one of the chief articles of food here. I have not acquired the taste for them yet. They are an excellent substitute for meat when the Enterpriso lays over a trip. It is therefore gratifying to hear of a full crop this year.

You will find a very interesting report from the clerk of the Municipal Council is the Columbian, which you ought to repub-Notwithstanding the fact of the Council having in hand the enormous balance of \$511 3614, the clerk finishes up his elaborate report by 'hoping that a brighter day will shortly shine upon the Municipality.

Some town lots were sold on Saturday last and realized low prices. The Examine postponed the destruction of the world says but few of the lots were of much value.' I can go father and say the whole 'biling' are not 'of much value.'

The educational question seems to be making considerable stir in Victoria. So i ought-you stick to the Free system. I guess if you are subjects of Queen Victoria you ought to have free education for your children. Every American expects it and can get it from the United States Government; and I believe that good mother, your Queen, wishes that all her young subjects say, 'Where's the money to come from?' folks heads, and don't buily the Bible into them. I don't believe that the imposition of writing out the 119th Psalm during playhours, or having a certain number of verses knocked into a child's bead in a given time. will ere long cease to be desecrated by the of the mainland requiring three times the is surely a compliment to Victoria, for I apprehend His Excellency took the average insale of British Columbia to Uncle Sam ap-United States people may congratulate themplace? (From the 'Court Circular.') On Tuesday morning the marriage of Captain Lord Gilford, R. N., eldest son of the Earl of Clanwilliam, with Miss E H Kennedy, daughter Mr Arthur Edward Kennedy, C B, late Governor and Commanderin-Chief of Vancouver Island, was solemnised at St George's Church, Hanover Square. A large number of the relatives and friends of both families met in the church on the occasion. The wedding party had assembled at the church by eleven o'clock, the noble bridegroom being accompanied by Lord Dunglas, who acted as best man.

The bride was accompanied by her father, and attended by the following young ladies as bridesmaids:-Miss Georgiana Kennedy, sister of the bride; Lady Laura Phipps, daughter of the Marquis and Marchioness of Normanby; Miss Grace and Miss A Kennedy, cousins of the bride; and the Ladies Mary Catherine and Elizabeth Maude Herbert daughters of Lady Herbert of Lea, and cousins of the bridegroom.

The bride wore a dress of rich white satin, rimmed with Brussels lace and for a head dress a wreath of crange blossoms, and veil of old Brussels point lace. The ornaments worn by the bride comprised broach, necklace, and carrings of pearls, the gift of the Earl of Clanwilliam. Each of the bridesmaids were an oval shaped jewelled locket gifts from the noble and gallant bridegroom. The wedding party having assembled in front of the communion table, the marriage rite was commenced. The Rev. Dr Kynaston, D. D. prebendary of St Paul's and high mas ter of St Paul's School, performed the ceremony, assisted by the Hon. and Rev. Sidney Meade, brother of the bridegroom. At the conclusion of the ceremony, and the registration of the marriage, the wedding party adjourned to Mr Kennedy's residence in George street, where breaklast was provided for 200 persons.

Among the company who assembled at the church, and who were present at the breakfast, were the Marquis and Marchioness of Normanby and Lady Laura and Lady Katherine Phipps, the Marquis and Marchoness of Ailesbury, the Marchieness of Londonderry, the Marquis of Donegall, the Earl of Mulgrave, the Earl and Countess of Home and the Ladies Elizabeth and Ada Home, the Earl of Ellenborough, the Earl of Clanwilliam, the Earl and Countess of Enniskillen, the Countess Downger of Dunmore and Lady Alexandrina Murray, the Countess Downger of Mount Edgcumbe and Lady Ernestine Edgeumbe, Viscount and Vis countess de Vesci and Hon Georgiana Vesey, Lady Herbert of Lea and the Ladies Mary and Elizabeth Herbert, Lord and Lady Edward Chichester and Miss Chichester, Hon and Rev Sidney Meade, Hon Colonel and Mrs Byng, Hon John Cole, Hon Maurice Portman, Hon Mrs Hope and Miss Hope, Hon Mrs Tighe, the Right Hon Gathorne Hardy, M P, and Mrs and Misses Hardy (2) Count Strzelecki, Sir James and Lady Emerson Tennent and Miss Tennent, Sir George and Lady Jenkinson and the Misses Jenkinson (2), Mr and Lady Louisa Mills. Mr and Lady Selina Bidwell, Admiral and Mrs Dunlop, Colonel and Mrs C. Kennedy, Colonel and Mrs Adair, Colonel and Mrs Henderson, Colonel W. Forde, M P, and Mrs Forde, Rev Dr and Mrs Kynaston, Mr Hubert Evans, Mr and Mis Romaine, Mr and Mrs Harvey Jay, Mr and Mrs Wilson Block Mr George MacCartney, Mrs F. Blackwood Mrs and Misses Evans (2), Mrs and Miss Boothby, Mr and Mrs Newton and Misses Newton (2), Mrs Arthur Kennedy and

Misses Kennedy, &c. The noble Lord and his bride left town early in the afternoon for Wilton House, the Earl of Pembroke's seat in Wiltshire, to pass the honeymoon. The bridal presents were very numerous, and several were of the

most costly description. ELECTIONEERING AT WEYMOUTH .- At the general election of 1865 four candidates made their appearance for the borough of Weymouth—on the Conserva-tive side, the two sitting members, Mr Brooks, a merchant and shipowner, and Lord Grey de Wilton; from the Liberal camp, Captain Gridley, an unsuccessful candidate at Beverley in 1860, and Mr Well, I say, there's money found somehow for less important things, and I fancy the 'riffle' can be made for Public Schools.

Stick up, too, for the secular system; don't treated his constituents with considerable go cramming hisalutin doctrines into young indifference. The return of the poll was folks heads, and don't builty the Bible linto —Brooks, 381; Gridley, 378; Grey De Wilton, 28; Edwards, 14. The history of the transaction is as follows:—Weymouth for many years has been anything but pure. Its iniquity was, however, third Napoleon lures them to his metropolis with a glittering glass-house. The end is worthy of the means. The victor smiles from on high upon the birds catcher. Let it pass. The glass of the them to respect it. In your leading article and Kirkee of contested elections. this occasion, however, the system of limited liability was set aside, and, in consequence of the strike, the free and inde-pendent asserted their freedom and independence, irrespective of party considerations. There were, however, formulas of tellect of the two colonies and found the procedure. According to the rights of heads of young mainland to be thrico the one denomination, the elector on being thickness of juvenile Vancouver, and so appared to the rights of the rights portioned the funds accordingly. Is this face from the caudidate with the crown density attributable to the parents? The of his hat, saying with maiden coyness, sale of British Columbia to Uncle Sam ap. "Oh, sir, I can't look at you." Inside pears to be quite settled, and if all I have read about her vast resources be true, the what the French call his "chiffre," Another would at once state his price, placing it high, say at three or four hundred pounds. On a remonstrance from the agent, in the tone of familiar cajolery employed at elections-such as, William, you are opening your mouth too wide; what will the old woman say to wide; what will the old woman say to aight at your family prayers? the answer was, 'well, sir, you'll be glad to give me double at half past three on Wednesday.' A third would boldly refuse to give any answer at all, merely volunteering a winking counsel that at the before mentioned murder recognized as a fine art, no taxation, no aristocracy, 'let's all be equal and I'll be your king.' That's the sort of thing. 'This a consummation devoutly to be wished.' And yet you don't appear to advocate Annexation. Indeed I understand the majority of Victoria people are opposed to it, on the grounds that they are 'taxed enough already,' and thick the British form of Government about as good as many others. What fanalteism! date he would be found at home. At

being the senior candidate to his col league. The borough, therefore, was practi disfranchised by the candidates themselves; and the leaders of parties subsequently agreed that all future elections at Weymouth should be kept one and one, in order to avoid the inevitable penalties to be inflicted by the looming Reform bill on peccant constituencies Captain Gridley, for reasons of his own, is now retiring, and Mr Edwards steps into his shoes without a contest, in pursuance of the compact.—Pall Mall

DELAYED DISPACHES.

NEW YORK, Aug. 12-The Herald's special says one cause of the delay in removing Stanton was the disagreement in the Cabine in regard to the propriety of Seward in opposing the measure. It is said Johnson now sees that many of Sewaro's counsels have been unwise, and is resolved to request Ser ward to resign. A correspondent says this statement is not made by authority, but should Seward retire it is believed Adams will be recalled from England to take the position. It is stated as one of the reasons which prompted Stanton's refusal to resign, that he has received information of a scheme on foot for arming the military organizations South, with the ultimate object of another rebellion, and so he determined to remain at his post and thwart his designs. It is also stated that Stanton refused the request of the President to assign a battery of eight guns to a military company of Maryland who were composed mainly of returned rebels. The President sent a communication at 10

o'clock this morning to Stanton, suspending him from office and instructing him to trans fer all the books, records, &c., in his custody, to Gen. Grant, who has been empowered to by three hundred Indians. A desperate act as Secretary of War ad interim. Shortly after noon Stanton sent a reply to the President denying the Executive right to suspend him from his office without the consent of the Senate and without legal cause. However, as the General commanding the armies had notified him that he had accepted the appointment as Secretary of War ad interim Stanton concluded by saying he had no alternative but to submit to superior force Grant, therefore, has assumed the charge of the War Department, and appear at a Cabinet meeting to-day for the purpose cf considering certain functions connected with

In this City, Aug. 18th, the wife of A. F. Main, Esq. of a son. DEED

On board the Bark "Aid," off Victoria Harbor, on the 19th mst., William Murdoch, native of Port Pattrick, Scotland. The funeral will take place from Janion, Green & Rhodes' Whari, at 10 a. m., this day.

A City Nuisance.

In the Mayor's Court, yesterday, Mr L. Lowenberg, representing Hon. A. De Cosmos. appeared to answer a charge of maintaining a nuisance on the premises known as the Colonist building. Councillor Hebbard appeared to prosecute.

Councillor Hebbard-Have you the origical order ?

Mr Lowenberg-I don't know that you're the spokesman.

Councillor Hebbard-Mr Lowenberg, you have only to answer questions, sir, and you shall have a fair and impartial hearing. The Mayor-Have you the order?

Mr Lowenberg-No, your Worship, have not.

Councillor Hebbard addressed the Bench. He alluded to the complaint of Mr Copland, a tenant of Mr DeCosmos, as to the nuisance, and said that Mr Lowenberg had failed to comply with the order of the Sanitory Commission in removing the nuisance which scientific men declared to exist there. It was a disgrace to a Siwash, and not to the Hon. A. DeCosmos, who, were he here, would willingly remove it without being dragged before the Mayor's Court. There was a misunderstanding on the part of the Sanitory Commission, and they did not agree with him (Mr Hebberd) as to the cause of the stench. He called on the Mayor to sustain the first order of the Sanitory Commission, and to pay no attention to the wishy-washy arguments of the defendant. He (Mr H.) had no personal feeling in the matter. He had never had dealings with Mr Lowenberg; and as for Mr DeCosmos, he was on most intimate terms with him. If the wealthy were allowed to escape punishment, and the

indigent punished, it was unjust. Mr Lowenberg said he had listened with rapt attention to the eloquent appeal of Councillor Hebbard, but the learned dissertation he had delivered on smells was not satisfactory. He had misstated facts, but he (Mr L.) could not argue with him, neither could any one cise. Mr Trabey and Mr Gibbs, two other members of the Sanitory Commission, had gone to the premises and found that Councillor Hebbard knew nothing at all about smells. Mr H.'s ignorance was no disgrace, as he had probably never been in the business. The privy was no nuisance; the nuisance was caused by foul water running down from above. Mr Copland's complaint was a foolish and supid one; a barre of lime had been thrown down the privy at Mr Copland's suggestion, and that gentleman afterwards informed him (Mr Lowenberg) that he had no complaint to make against the privy. If Mr Hebbard lived there it would be necessary, perhaps, to throw rosewater and eau de Cologne down every day. Mr Lowenberg said that two of the Sanitory Commission sustained him, and that Mr Cop-

land's lease could be cancelled at once. Councillor Hebbard said the first order of the Commission had not been complied with. Councillor Gibbs explained that the first order had been revoked because Mr Copland had withdrawn his complaint against the

water-closet. He was sorry Mr Hebbard was so positive against the opinion of the other members of the Commission. He was "dressed in a little brief authority," &c., and appeared to want to play " fantastic tricks." The Mayor took the view of a majority of

the Commission, and ordered that a proper drain and ventilator be constructed within The Greatest Family Medicine of the age three days, subject to the approval of the Sanitory Commission, Mr Lowenberg to pay the costs of the first summons.

ARRIVAL OF THE " AID."-A SAD TALE. The British bark Aid, 219 days from Liverpool, laden with general merchandise and consigned to Janion, Green & Rhodes, arrived in the outer harbor yesterday morning, with a sailor dead aboard, and the entire crew, with the exception of one man, down with the scurvy. The deceased sailor was named Wm. Murdoch. He died yesterday after the vessel rounded Race Ricks. An other man was so near death that he was sent ashore in a boat to the Royal Hosnital. Two days ago another seaman died and was buried at sea. For several days only the captain, mate and one seaman have been able to do duty, and men had to be sent outside by the consignees to assist in raising the anchor. The bark was towed to Janion. 'Green & Rhodes' wharf last evening by the

LARGE SHIPMENT OF GOLD-The steamship Active, yesterday, carried away \$232,156 shipped as follows: Bank of British North America, \$155 917; Bank of British Columbia, \$54,181; Wells, Fargo & Co., \$22,000. The shipments thus far are largely in excess of those of any previous year-a fact which may be accepted as incontrovertible evidence that the yield of gold is greater and the prosperity of the mining community more general than ever before.

ARRIVAL FROM SHANGHAE, CHINA-The British ship Anna Dorothea, Capt. J. Flannery, in ballast, 41 days from Shanghae, arrived yesterday morning. She is consigned to Sproat & Co. of this city, and will proceed to Burrard Inlet and load with lumber at Moody & Co.'s mills for Australia. Capt. Flannery reports average weather with favorable winds.

DEATH FROM LOCK-JAW .- A young man named Henry Cantrill, a native of England, died on Sunday of lock-jaw, superinduced by an injury sustained some months' ago. The poor fellow endured fearful agony for several days before death put an end to his sufferings. Deceased will be buried to-day with Masonic borors.

NEW SING VEREIN HALL .- This hall is the largest in the Colony. The dancingroom, the dressing and supper-rooms are elegant apartments, and each is distinct in itself. The Club bave shown wisdom in their selection of the building. The fine plane by Zech, belonging to the Verein, has been placed in the hall, and the dedicatory "hop" will come off to-morrow evening.

FOR HONOLULU, S.I .- The schooner Kate, Captain Gardiner, sailed last evening for Honolulu via Alberni. She carried away 78 haif-barrels of salmon, 200 barrels and 100,-000 shingles. At Alberni she will complete her cargo by taking aboard 250 barrels of salmon, from Fisher's station, for the same destination.

PUGET SOUND ITEMS,-The Seattle Intelligencer, of Monday, has a few items of interest :- A paper is to be started at Steilacoom to support that place as the terminus of the Northern Pacific Railway ... A new back for the lumber trade is being built at Port Madison Major Tilton is out surveying the passes for the railway.

DEPARTURE OF THE ACTIVE-The steam. ship Active, Captain Winsor, left her wharf at 7 o'clock last evening with 45 passengers, twelve of whom were from the Sound, and a large freight, for San Francisco. The num. ber of people who gathered on the wharf to see friends off was large, and as the boat moved off silent adiens were waved.

FROM THE SOUND .- The mail steamer New World arrived from Olympia and way ports at 21/2 o'clock yesterday afternoon. brought passengers and live stock. The Eliza Anderson, with passengers and live stock, from the same quarter, came in about three hours after the New World.

FIRE DEPARTMENT-There is likely to be an interesting contest for the office of Chief Engineer of the Fire Department. In addition to the candidate (Mr Kelly) already in the field, two others are spoken of.

ARRIVAL FROM BELOW-The British ship Australiad arrived yesterday morning from San Francisco. She is consigned to Capt. Stamp, at whose mills she will load with lumber and spars for abroad.

It is a sure remember for A AND CHILLS AND FRYER,

What is your Allment?—A hundred varioies f diseace may be traced to the stomach. For each and all of them, common sense suggests that the medicine which reduces that organ to its full vigor, is the true remely if common sense domaids what that remedy is, experience answers, Byratolos Sugar-conted Pills. Cath arties are plenty, but nine-tenths of them give only temporary relief, and many are dangerous. It is better to let dy-pepsia have its way, than to attempt its cure with merenty. The so called remedy will destroy the patient more rapidly than the disease. Not 80 Bristol's Sugar-conted Pills, which owe their efficacy solely to vegetable extracts. If the liver is wrong, they put if right; if the bowels are clogged with obstructions, trey remove them; if the stomach is incapable of perfect digestion, they impart to it the lequication and vivacity. They are put up in glass vials, and will keep in any climate. In cases arising from, or aggravated by impure blood, Barsrot's Sangayamila should be used in connection with the Pills.

Holloway's Ointment and Pills,—Bad Legs.—Any uninatural discharge from the skin is at all times disagreeable, but in hot weather it becomes irritating—sometimes offensive. Bad legs, old wounds, ecredula and scorotutic cruptions are cocfed, southed and cured by Holloway's Ointment. It at once arrests all disagree of the surface by purifying and regulating the circulation in their neighborhood, by giving energy to the nerves of the affected part, and by expelling all poisonous and nex'ous matters. It ejects the seeds of all virulent cruptions and ulcerations, and thus confers no partial or temporary bood, but a complete and permanent cure. By neans of these remedies all sufferers may aim at attaining health, a dwill invariably succeed.

Hereditary Disease.—The lives of thousands are blighted by hereditary scrofula. Yet it is curable. An Monday, Aug. 26th, blighted by Discuss.—The fives of mousmas are blighted by hereditary scrouls. Yet it is curable. An alkali does not more certainly neutralize an acid than Bristo? Straspurillia deprives the scrofilous and syphilitic virus of its sting. It is the only antisentic which will arrest uterons meatanes of the virulent class, and prevent the possibility of their being transmitted to the next generation. The patient is cured constitutionally, and becomes as sound in every fibre, as though in had never known disease. Of course, to effect so great a change, it is necessary to continue the use of the Saraparilla a number of months. Bristol's Vegetable PHB should at the same time be used in moderate doses.

The Progress of a Luxury.—For thirty years the fashionable would has been perfumed with Marray and Lammun's Florida Watter, and its fame has been spreading as time law. Havig taken precedence of all other toilet odors in the United States, it passed to the Southen Peninsula, and thence to all Spanish America, continental and insular. When California became a state, she demanded it; and then Australia received it. With every civilized community in the Western world its name is a household word, its fragrance and refreshing power a household blessing. And still its reputation extends, and is likely to extend, to wherever an exquisite floral perfume is appreciated. [29]. H. MAXWELL INGLIS, FEq. , P.C.S. , in the Chair,

The Annual Report on the Books and Accounts by the Auditor of the Company, certifying that he had found the whole Accounts accurately stated and properly vouched.

as tollows:

The Board of Directors have again the pleasure of congratulating the Proprietors of the Company on its continued satisfactory progress.

On occasion of the last Annual General Meeting in the Spring of 1866, the Directors had the pleasure of reporting the progress and completion of large and important negotiations—namely, the transfer of the business of the Mineava and Virronia Origins, and the successful annual summition with the Command for Assertance Company, all of which brought new connections and varied advantages to the Institution.

In May 1866, the satisfactory result of the Quinquen-nial Investigation into the Company's Alfairs, and Di-vision of Profits, as at 18th November, 1866, was re-ported, when the Company commenced the work of another lastrum, strengthened by its new and extended connections, supported on a broader basis, and full of confidence in the future, arising from the thorough in-vestigation which its Affairs had undergone with a suc-cessituand satisfactory is sue.

The Directors are satisfied that all interested will approve of this course of procedure.

To all other points of Management the attention of the Directors is currefully directed. The records of the Company's transactions have been brought into the most thorough state of efficiency, after giving effect to the transfers and amalgamation which have been carried through—a matter of the greatest importance in connection with transactions of such magnitude; and the endeavour of the Directors in future will be to conduct the Institution in such a manner as to develop the resources at its command without seeking further extension of its field of action, making it their study to produce as much profit as they can, consistently with liberal dealing, for the advantage of all interested. Mens' & Boys' French

Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted follow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

Schotula and Scrotulous Complaints,

SCROFULA AND SCROFULOUS COMPLAINTS SCROPULA AND SCROPULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RIBUM, SCALD HEAD, SYPHILIS AND SYPHILITIC APPECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREAUX, DEBILITY, DYSPEPSIA AND INDICESTION, ERYSPELAS, ROSE, OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints grising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or or extraver. must go wrong, and the great machinery of life is disordered or overthrown.

as disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more be-

tions of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle. (

Ayer's Cherry Pectoral

has won for itself such a remown for the cure of overy variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.
